SOMEDAY  
I'll take a vacation...

**Sound familiar?** Do you keep putting off your goals and dreams till tomorrow? What you do today determines your tomorrow. Stop putting your life on hold and start living your real life today.

The most powerful thing you can do is believe that your dreams are within reach. The stronger your belief, the stronger your drive and determination are to get there. Take control of your destiny and start reaching for your dreams now. Whatever your career, education or background, you can turn your dreams into a reality.

#### **What's Stopping You?**

"No matter how miserable people are, they hate change. The natural response to change is for people to say no, because of fear and doubt," says WIN Founder, **Ralph Oats**. But in order for anyone to achieve greatness, change is necessary. The desire for something better must outweigh the powerful emotions of fear and

doubt. Instead of focusing on the struggle, focus on the destination. You will make mistakes, you

**"The natural response to change is for people to say no, because of fear and doubt."**

will have setbacks — but these are opportunities for growth. "When times are bad, learn from them. It makes you better, it makes you stronger, it makes you better equipped to help people through their tough times," shares **Bob**, WIN's #1 Top Business Builder.

Thinking outside of the box and moving out of your comfort zone are necessary actions if you want to take control of your destiny. "Every day, you'll have opportunities to take chances and work outside your safety net. Sure, it's a lot easier to stay in your comfort zone — in my case, business suits and real estate — but sometimes you have to take risks. When the risks pay off, that's when you reap the biggest rewards," says entrepreneur and real estate mogul, Donald Trump.

### Find What Matters

In order to change your life for the better, you must have a clear vision of what your dreams are. What matters to you? Being healthy? Enjoying your family and friends? Having time and financial freedom? What drives you to get out of bed each day? Providing for a family? Wanting to improve your standard of living? Is what you're doing today getting you closer to what you want? If not, it's time to reevaluate your situation. While everyone's goals and dreams vary, we all want the same basic things — to be happy, healthy and wealthy. WIN is helping people rediscover what matters to them.

"I realized I needed to do something with my life to make a change, because my passion was to be a mom. I'm a fantastic physician, a great surgeon and I'm smart. But I'm also a great mom, and I want to be a mom to my kids and a wife to my husband," shares **Dr. Doucet**, an OB/GYN and mother of four, who found herself missing out on motherhood due to her busy medical practice. "This vehicle, this tool we found is going to let me be a mom again."

### Why WIN Is the Vehicle

Network marketing is the wave of the future. Forward-thinking individuals wanting to take control of their future have realized they can achieve all the benefits of business-ownership without all the headaches of running a traditional business. "This company created a system in which you can solve all the problems of a traditional business," shares **Sjoukje**, WIN's #7 Top Earner and Builder. WIN is about empowerment, helping people like you realize your future lies in your own hands — you truly have the power to take control of your health and finances. "Nobody wants to be working 16 or 17 hours a day and never seeing their children, never having time for their spouses. People want time freedom, and when you're involved with this company, you can have that. People want to be in charge of their own financial situation and this company offers you that possibility," shares **Gustavee** of South Africa.

One of the keys to WIN's success is its extensive line of high-quality products, producing measurable results with a satisfaction guarantee. WIN's products address the most common health concerns affecting the masses, including the global epidemic of obesity. Everyone wants to feel better, look better and improve their health and WIN's products are helping them get there with both instant-gratification results and long-term benefits.

The *Five Step Program* is the basic system for building a successful WIN business, which isn't focused on sale pitches or empty claims, but using the effective method of sampling. Our business

**"People want time freedom  
and when you're involved with this company, you can have that."**

works because our products work. The pay plan offers an opportunity for both immediate and residual income and the hands-on training ensures you get the support you need to realize your goals. You're in business for yourself but not by yourself.

With a proven track record and an innovative and progressive approach to health and wellness, WIN continues paving the way

for countless more to achieve physical, mental and financial wellness. "There's not much you can invest in nowadays," says **Dr. Tamburrino** of the current economic situation. "Invest in yourself. Start your own business with this company. Invest yourself in a company that's here for the future. I've been in this business 11 years. The products are spectacular and there's a tremendous business opportunity."

So go ahead, make your dreams a reality. Taking control of your future leads to a wealth of intangible benefits — what we refer to as mental wellness. Choosing when, where and with whom you work with allows a freedom most have never experienced before. Whether planning for retirement, caring for aging parents, or paying college tuition, owning your own WIN business can help you take control of your future and give a better quality of life to those you care about. Additionally, you'll enjoy the satisfaction that comes

with helping other people realize their dreams and improve their lives.

Don't settle for surviving paycheck to paycheck while life passes you by. You have the power to change your

life and the lives of others. What are you waiting for? Now is the time. Create an opportunity for yourself and others to discover what it's like to be happy, healthy and wealthy with WIN. Start working smarter instead of harder to make your "someday" become a reality — it starts whenever you accept the need for change and choose to start living. ■
